How to Read Pokémon Tarot

by Annabelle G.

What is Pokémon Tarot?

a unique form of
tarot reading where
the reader...

- @compiles the deck themselves
- @comes up with their own card's meanings
- @using Pokémon Cards!

Starting Your Deck

gather some
cards you like!

an ideal deck has 50-100
cards. i use 78 because
that's the number of cards
in a traditional tarot deck
but a beginner deck can
have as few as 20!

the cards in your deck
will change as you grow
your Pokémon Tarot Skills!

Assigning Meanings Cont.

consider the following when giving
your cards meanings...

@ the art of the card
what is the Pokémon doing? what emotion
do they have? what is going on around
the Pokémon?

@ the Pokémon's game data
what moves does this Pokémon use? what
abilities can it have? what strategies
does it employ and what can they
say about strategy in life?

@ the Pokémon's lore
is this Pokémon known for being good at
something? acting or behaving in a certain way?

@ what you think is valuable
is there a specific moral, sentiment, or
experience you think deserves attention?

Reading Layouts

there are lots of reading spreads you
can use to give structure to your
readings, these are the ones i like best!

for a general traditional reading

for asking questions and specific topics

for a more detailed
reading, combine
the two!

these are just a few
ideas. experiment yourself!

past 1 have 1
present 2 want 2
future 3 need 3

past 1 have 1
present 2 want 2
future 3 need 3

past 1 have 1
present 2 want 2
future 3 need 3

past 1 have 1
present 2 want 2
future 3 need 3

past 1 have 1
present 2 want 2
future 3 need 3

past 1 have 1
present 2 want 2
future 3 need 3

Assigning Meanings

now that you have your
cards, they now need meanings!

The most important thing
when assigning meanings
is what you want your
readings to be about.

I like to read about positive
characteristics, life experiences
& areas of your life that need
attention. you can also focus
on love, wealth, fortune, and
so much more!
